Quality & Experience

Alkhwat General Maintenance (L.L.C)

We would like to introduce ourselves. We are one of the reliable companies working in the UAE specializing in the design, maintenance and construction of swimming pools, Jacuzzis, fountains and water falls, soft & hard landscape for buildings, private villas and hotels.

Our company is backed by a team of qualified, well-experienced professionals and experts in their fields, who have worked with the most prestigious national companies.

In view of the above, we are looking forward to having the honor of being included in your list of recommended contractors &/or subcontractors for your selective projects.

Our services

By choosing us, you will have the advantage of getting the best services with cost effective and delivery

LANDSCAPING

POOL CONSTRUCTION

SWIMMING POOL MAINTENANCE

SPARE PARTS

TECHNICAL SERVICES

Pool Construction Procedure

BLOCK WORK

After soil is well-compacted, 2 sheets of polyethylene are laid then 150mm of BCC poured. For the desired shape, 8" solid block is used to achieve resistance and durability.

WATER-PROOFING

4mm membrane + protection Board is used as the first layer for water-proofing. This membrane will protect the steel bars from any underground water

GUNITE WORK

We use a well-mixed cement containing 5mm gravel, sand, silica and chemicals which we gunite to a minimum 170mm thickness of concrete.

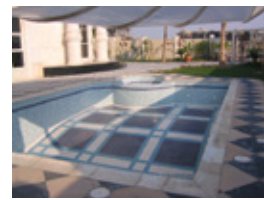

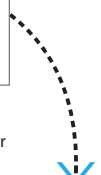

PLASTER WORKS

It is very important to create smooth surfaces to prepare for ceramic tile works.

SECOND LAYER WATER-PROOFING

This second layer is made by (Cemeteries waterproofing) to prevent any water leakage

FINISHING

To complete the final touches, we apply whatever the customer desires: ceramic, glass ceramic, paints, patterns
